## Technical Skills

- HTML
- CSS
- JavaScript
- jQuery
- Responsive Design
- Bootstrap
- Firebase
- Cookies, Local Storage
- React.js
- MySQL
- MongoDB
- Express
- Security and Session Storage
- User Authentication
- MERN Stack (MongoDB, Express.js, React.js, Node.js)

## ABOUT ME

Personable and passionate full stack web developer leveraging my background in psychology, business, and customer service to build more intuitive user experiences on the web. Excited to use skills such as JavaScript, React, MERN, and responsive web design, learned in a coding Bootcamp at University Washington, to collaborate in group work and build positive user experiences. Strengths in teamwork, working under pressure, motivating others/keeping a positive attitude, and executing ideas.

## PROJECTS

D&D Character Creator | <https://guarded-bayou-66527.herokuapp.com/>  
| <https://github.com/Jean424/DnD-Character-Creator>

- This project is a MVC framework site where users can create and save their characters for their Dungeons and Dragons adventures.
- Technologies used: Node.js, Express.js, MySQL, Sequelize, Handlebars.js, Dungeons and Dragons API

Flicks | <https://keltonlea.github.io/Project-1/>  
| <https://github.com/Keltonlea/Project-1>

- This is an interactive front end application that allows users to search movies, find poster images, plots, cast, and more.
- Technologies used: JavaScript, Bootstrap, jQuery, HTML, CSS, IMDB and OMDB API.
